

Sponsorships/Exhibits

Funding Requirements

Sponsorships and exhibits are considered for opportunities within UroGen therapeutic areas of interest

- These include medical conferences, scientific meetings, medical societies, and healthcare-related venues
- These are largely promotional, yet unbranded scientific or disease state medical information displays

Sponsorships and exhibits provide a tangible benefit to UroGen

Tangible benefit is a business-oriented benefit to UroGen, its products, services, or programs such as advertising, banners, signage, booth space, and conference registration at a medical congress, society meeting, or similar event. Tangible benefits must provide the opportunities to truly advertise or advance an identified UroGen interest. Corporate recognition/logos alone do not constitute a tangible benefit.

Funding Request Documents

- Letter of request on organization letterhead
- Specific request
- Description of the venue or opportunity
- Program itinerary and/or commercial prospectus
- Total requested funds
- Tangible benefits available to UroGen (as described)
- Current W9

A letter of agreement will be executed between the organization and UroGen.
