

URETERAL CATHETER ADMINISTRATION KIT

Instructions for Use

Read the following
Instructions for use
carefully.

1. Intended Use

The Ureteral Catheter Administration Kit is intended to be used by physicians for facilitating access to the urinary tract through a retrograde route and may be used in conjunction with a guidewire for the administration of gels or fluids into the urinary tract. The convenience kit includes components that may assist in facilitating such urological procedures. Refer to the **Device Description Section** for a list of kit contents.

2. Contraindications

There are no contraindications for the Ureteral Catheter Administration Kit.

3. Warnings and Precautions

Consult the Instructions for Use of the individual components of the kit at www.urogen.com.

4. Device Description
